

CutStudio

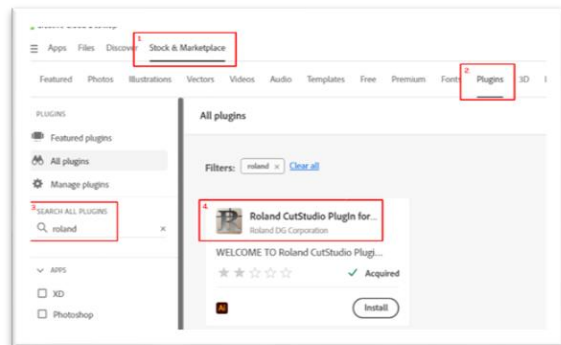

Adding Adobe Illustrator Plugin

The CutStudio Plugin for Illustrator is installed via Adobe Creative Cloud open this and sign in.

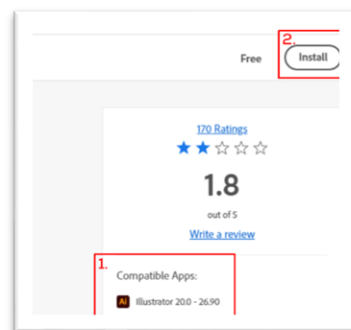

Once open navigate to:

1. Stock & Marketplace
2. Plugins
3. Search – "Roland"
4. Click the Roland CutStudio Plugin banner.

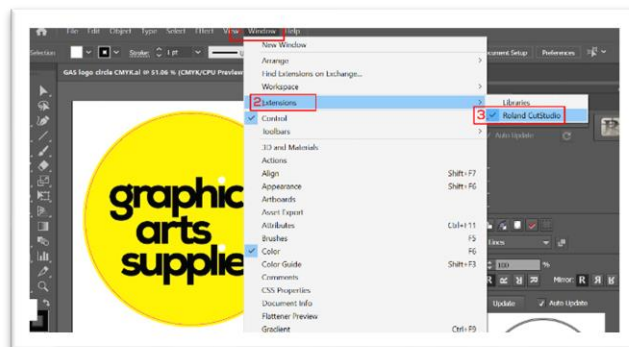

On the next screen

1. Check here under the **Compatible Apps** section and make sure your version of Adobe Illustrator will work with the plugin.
2. If all good Click Install. If necessary, you can back date illustrator in Creative Cloud to a suitable version.

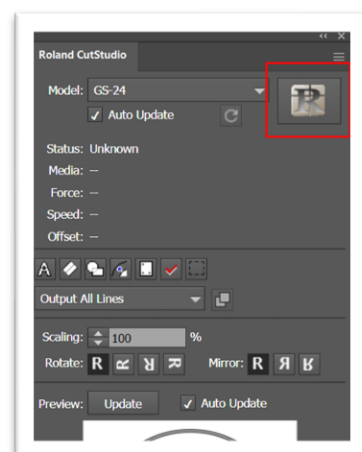

To open the plugin in Adobe Illustrator:

1. Windows
2. Extensions
3. Roland CutStudio

When your design is ready to send to your cutter, click the Roland CutStudio Logo top right. This will launch CutStudio with your design loaded and ready to cut.
